Roseland
COMMERCIAL GROUP

Roseland Trading Company is the largest manufacturer of machine-woven carpets in the Middle East, which produces and sells hundreds of carpets in various designs, e.g. Embossed flower models with 500, 700, 1000, 1200 and 15000 reeds in different models and patterns. Each of these designs has its unique beauty, drawing peoples' attention all over the world.

1

All Roseland carpets are woven in dimensions of 6, 9, 12, 18, and 24 meters, as well as customized ones. Lint-free, non-allergic, abrasion resistance and warranty are important features of Roseland carpets as it produces all types of carpets in the form of round, oval and rectangular.

Embossed flower-carpets (reeds1500)

Embossed flower-carpets are very popular due to their less density, nice design, and application for a variety of modern and classic decorations. In the texture of these carpets, two types of acrylic heat set and pile have been used, which creates embossed designs on the surface of the carpet.

The use of these yarns makes the carpets non-allergic and lint-free, and they can be easily removed in case of stains without quality subtraction. The density of these carpets is 4500, which makes them so much durable. The beauty, charm, radiance and quality of these carpets cannot be compared to other carpets as their high resemblance to hand-woven carpets is one of their most important features.

1200-reeds Carpet

1200-reeds carpet with a density of 3600 is one of the most modern products in the textile industry, which has its own unique feature. Not only are these carpets very elegant and fin-spun, but also they are woven with short and thin fibers. The pile used for these carpets are of the highest-quality fibers and are available in 8, 10 or 12 colors. Low thickness, variety in design and color are important features of these carpets.

Embossed flower carpets (reeds1200)

This model creates a three-dimensional mode due to the its embossed and debossed design and is known as the most beautiful machine-woven carpet. 1200reeds, high resolution, quality of design, the use of 100% acrylic heat-set yarn and hand-woven are the important features of these carpets. These carpets are very strong, solid and durable with little fuzzing.

10-color carpet (reeds 1000)

This type of carpet has a special beauty and charm due to the numerous colors applied in the pattern of the carpet. The knots in these carpets are compactly woven together, making them strong and resistant to pressure. The density of these carpets is 3000 and their yarn is made of cotton or acrylic heat set.

Embossed flower carpet (1000 reeds)

This is one of the best-selling and most popular machine-woven carpets that is woven in different colors such as cream, silver, navy blue, light gray, etc. Their pile is made of 100 acrylic heat sets, which are very soft and without fuzz. High-quality yarn and anti-allergic are what make this carpet stand out amongst other models.

700-reeds carpet

These carpets have been made in various designs and are very popular. They have a density of 2550 and are thicker than other carpets. The height of the pile in these carpets is approximately 11 mm, which has a high durability and softness. Moreover, 700-reeds carpets are woven in 8, 10, or 12 colors.

10

Crystal carpet (500reeds)

These carpets have many fans due to their very beautiful and attractive appearance. High quality and high thickness are important specifications of these carpets that make them highly resistant to wear and tear. The height of the pile in a 500-reeds carpet is about 11 to 12 mm, so the carpet is very soft and suitable for public buildings. The number of colors used in the 500-reeds carpet is only 8, and due to the low density and reeds, they are also less expensive.

Packaging

Carpets are packaged by fully-automatic machines capable of rolling different types of carpets in different sizes without manual intervention. The carpets are then wrapped in nylon and a layer of nylon or sack is placed between each carpet.
